

**POV STORAGE OPERATIONS  
FORT CARSON, CO**

As of 12 February 2012, the POV Storage Operations for Fort Carson and supported areas have changed to on-post storage for authorized single and/or dual-military married Soldiers.

All coordination for storage or withdrawal of POVs will be done through the Installation Transportation Office (ITO). Appointments will be initially scheduled, changed or cancelled through the following POCs:

Primary: (719) 526-3367

Alternate: (719) 526-1143

Alternate: (719) 526-1159

Storage will be at the old RV storage lot, Bldg 3660. The lot is located on MaGrath Ave by Gate 20, between the Fire Training Center and the new AAFES Shopette.

Storage is outside and no maintenance will be performed on vehicles. ITO personnel and/or a Unit provided detail will conduct inspections with the vehicle owner/agent utilizing DD Form 788 or 788-1. Custody of vehicles/keys will remain with the ITO.

There will be no walk-ins accepted - site is not permanently manned and ITO will be available by appointment only.

Vehicles are required to be clean, personal items removed and in operable condition for storage with no safety defects. Vehicles that will not remain idling in neutral/park, that are visibly leaking fluids or contain windshield cracks that obstruct the driver's vision will not be accepted for storage.

Any personal items left in the vehicle are at the owner's risk and are not the responsibility of the ITO. Owners are encouraged to remove all "soft" items, to include clothing, bedding, paperwork, etc. from the vehicle and to clean the inside of the vehicle to remove any food particles that could attract mice. Cotton balls saturated with peppermint oil will be placed in each vehicle to further deter entry by mice. If a Soldier has an aversion to peppermint, they may elect to decline the peppermint balls.

POVs will consist of cars, trucks, SUVs, and vans. No trailers, boats, RVs, ATVs, snowmobiles, etc. will be stored. Motorcycles are stored through the Joint Personal Property Shipping Office (JPPSO), Bldg 1220, and crated as personal property.

Vehicle owners will present to the inspector a valid I.D. and a current registration or other proof of ownership. Vehicles will not be accepted without these documents.

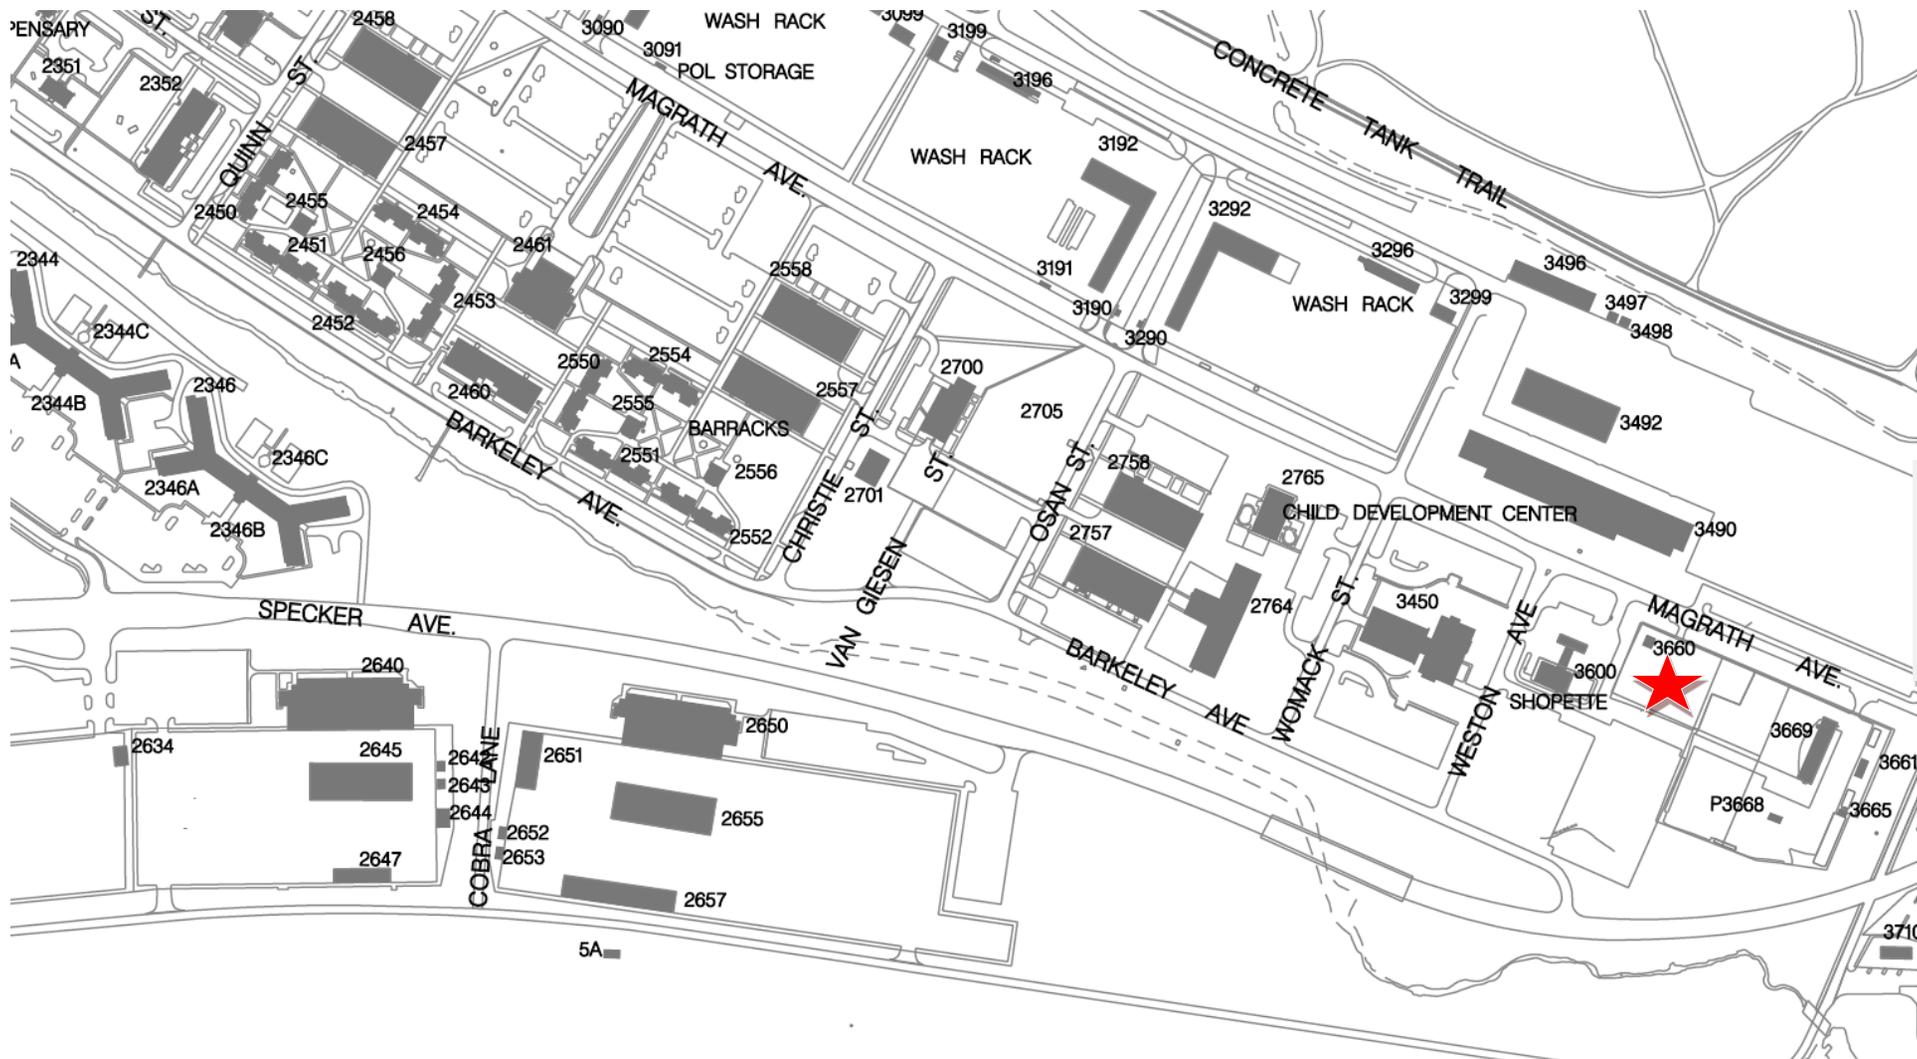

Vehicles will only be accepted from rightful owners or persons having a valid Power of Attorney from the rightful owner authorizing them to store the vehicle.

All forms and required documentation will be provided by the ITO.

Claims for vehicle damage will be settled with the JAG office.

Appointments for out-processing will be made following the same scheduling procedures. Vehicle owner will present valid I.D. and their copy of the DD Form 788 inspection sheet. If the vehicle owner does not have their copy of the DD Form 788, the original inspection sheet from the ITO's file will be utilized. Anyone picking up a vehicle other than the rightful owner will need to present a valid Power of Attorney.

ITO will have jumper cables, a jumper vehicle, small tools and an air compressor for tires to facilitate return of vehicles in an operational condition.
