

**Mountain Post
Medical Simulation Training Center (MSTC)
Fort Carson, Colorado
FY 2012 Training Schedule**

The Medical Education and Demonstration of Individual Competence (MEDIC) course will be offered to Soldiers with upcoming EMT-Basic expiration. If completed annually, it will meet the 68W's requirement for EMT-Basic Re-registration. There is no cost for this course.

The International Trauma Life Support (ITLS) Course is offered to the 68W and Soldiers with EMT Certification. This course may be combined with an existing MEDIC Course or as a separate course. The length is 2 days for adult and 1 day for pediatric.

Basic Life Support (BLS) training is a requirement for all 68W Soldiers every two years. All BLS courses are recertification courses and are completed in 4 hours.

Combat Lifesaver Training is available for units without medics. Units without their own medics should request CLS courses to be MSTC Instructor Led. Units with medics may request to use the MSTC to conduct their CLS training with their own medics. A CLS Training the Trainer course is available prior to Unit Led CLS training.

Improved First Aid Kit (IFAK) Familiarization Training can be available for units as requested. Course length is typically 4-6 hours and can accommodate up to 36 Soldiers

Weekend training for National Guard and Reserve units can be made available at the MSTC with prior coordination. Units will typically provide an appropriate number of qualified 68W medics to facilitate the training.
